

5KW Controller

Product Model	5KW		
Rated Battery Voltage	20V		
Rated Wind Turbine Input Power	5KW		
Maximum Wind Turbine Input Power	6.5 kW		
Wind Turbine Brake Current	27A		
Rated Solar Input Power	1.5kW		
Floating Charging Voltage	290V		
Display Mode	LCD		
Quiescent Current	≤20mA		
Ambient Temperature & Humidity	-20~+55°C/35~85%RH（Without Condensation）		
Temperature Compensation Function (Optional)	-4mV/°C/2V ， -35°C--+80°C ， Precision: ±1°C		
In order to serve our customers better. Our company can adjust parameters configuration according to customer’s requirement.
